

SHUL SAFETY

What Steps Can Your Shul Take?

- Promote a security consciousness among all staff and congregants
- Provide clear emergency response procedures and training to staff and congregants
- Develop and implement a detailed security and emergency response plan
- Determine if the shul should hire off-duty law enforcement as security guards
- Control shul entry points by limiting congregant and visitor access to only one main entrance
- Keep doors and windows locked at all times
- Install and maintain panic buttons, alarm systems, and surveillance cameras
- Keep charged cellphones available in different locations at all times
- Install physical deterrents, such as bollards and/or barriers
- Hire a security professional to perform a thorough security assessment
- Hire a security coordinator and/or designate congregants to oversee and implement all security policies and measures
- Develop relationships with local police and fire departments and encourage them to become familiar with your facility
- Hire extra security for Shabbos, Yom Tov, events, and lectures
- Perform lockdown and evacuation drills regularly, even on Shabbos and Yom Tov (with the guidance of the shul rabbi)
